Allan Kenji Honda

Osasco, SP, Brazil | +55 11 99646-1902 | allanhonda73@gmail.com | linkedin.com/in/allan-honda-b0a80a290

Computer Science student and full-stack developer intern working on the Microsoft stack (SharePoint, Microsoft Graph, Entra ID, Power BI) and AI automation. Brings 1.5+ years of partner-facing experience from TCS, negotiating with corporate partners and bridging business and IT teams.

EDUCATION

Mackenzie Presbyterian University — São Paulo, Brazil

B.S. in Computer Science (evening program) · GPA 8.25/10 — *Expected Jun 2028*

Relevant coursework: Data Structures, Algorithms, Graph Theory, Databases, Numerical Methods

EXPERIENCE

New Legal (Jurisconte) — São Paulo, Brazil

Full Stack Developer Intern — *Oct 2026 – Present*

- Built a Claude-based AI agent that fills license forms and attaches documents in about 30 seconds instead of 1 to 3 minutes by hand, more reliably; then built it into the platform's code.
- Resolved 20+ bug tickets in the first three weeks while learning TypeScript and Next.js from scratch, on a platform whose four modules run on SharePoint, Microsoft Graph, and Entra ID.
- Presented Claude's AI features to the team and recommended adopting them in daily work.
- Bringing Power BI financial reports into the platform, focused on calculation accuracy.

Tata Consultancy Services (TCS) — Brazil

Young Apprentice – HR, Sales & IT — *Jun 2023 – Jan 2025*

- Prospected and negotiated 10+ corporate partnerships, expanding TCS's employee-benefits network.
- Acted as liaison between HR, Sales, and IT teams, supporting process improvements.
- Automated routine tasks with Python and Excel, supporting data analysis for HR, Sales, and IT.

PROJECTS

- **Brazilian Air Network Analysis** (Python): modeled Brazil's air routes as a weighted graph from OpenFlights data and applied graph search, connectivity analysis, Dijkstra, Floyd-Warshall, and Kruskal.
- **Balanced Search Trees** (Java): implemented AVL and Red-Black trees and applied them to real COVID-19 data from SEADE, São Paulo State's statistics agency.
- **Report Automation** (Python, Excel): turns Windows directory listings into Excel reports.

SKILLS

Programming: Python, TypeScript, Java, C, SQL, NoSQL

Microsoft: SharePoint, Microsoft Graph, Microsoft Entra ID (basic), Power BI, Excel (advanced)

Web, cloud & AI: Next.js, Vercel, Git/GitHub, AWS (basic), prompt engineering, AI agents

Professional: partner negotiation, stakeholder communication, process automation

Languages: Portuguese (native), English (fluent, spoken and written)
